Unless a fan of adequate size is mounted directly over (or very close to) the stove, it often fails to draw off the heat, odors and grease as efficiently as it should. For maximum effectiveness, this fan should be connected to a range hood installed directly over the stove.	True	By Bernard Gladstone	1989-06-19	RE0000426568	RE0000426568
